REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicants argument that Okayama does not teach maintaining coherency between the TLB of the bridge and an image in system memory is incorrect see Okayama claim 2. However applicants argument that Okayama does not disclose or suggest any ability of the PTERRC to observe the memory bus writes to TLB locations, corresponding to the claim language " maintains coherency by observing the first interface for reference to entries of a page table in a memory", is persuasive. Okayama appears to maintain coherency via an active check of the page table locations and not observing the memory bus for accesses to the page table.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul R. Myers whose telephone number is 703 305 9656. The examiner can normally be reached on Mon-Thur 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Rinehart can be reached on 703 305 4815. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
